INDEX

administrative assistants in O.R. 35-37

administration, O.R. 27, 28, 29, 35-37, 38-40

air conditioning
- filters 47, 48
- maintenance 32, 33
- role in infection-control program 46-48

anesthesia
- coverage 108
- electrical 107, 108
- equipment, sterilization 109, 110
- for bronchoscopy, bronchography 100
- for infants undergoing cardiovascular surgery 101-104

blankets, disinfection of 120

blood supply to femoral head, methods for checking 95

booties, conductive 42

bulk containers 133

burn patients, management of 88-93

cabinets
- bacteriological studies of open and closed cabinets 43-45
- pass-through 41

cardiac surgery
- complications 97
- postoperative care 96, 97
- postoperative infection 50
- with disposable oxygenator 73-75

cellophane packaging 113, 114

chemical disinfection 109, 111, 112, 113, 118, 119, 120

consent for surgery 20, 21

contaminated case, disposal of O.R. clothing 43

contamination, air-borne 45, 46, 48, 51

counts
- instrument 41
- sponges 23, 87

cystoscopy, system provides sterile water for 126

decision-making 40

deionizer unit 131

depilatory cream 121-123

disposal of waste 42

drag chains 42

dressings, sterile prepackaged, duration of sterility 131, 132

ear diseases, research in 76-78

electrical equipment, handling 24

entrance mats, germicide-impregnated 42

ethylene-oxide sterilization 110, 114, 117, 118, 119

explosion hazards 24, 25, 106

extension cords 42

floor
- cleaning 32
- conductivity 24

fluids, reaction to 129, 130

footwear, conductive 24, 42

foreign-body control 23

glutaraldehyde 119, 120

hepatitis 119, 128

housekeeping in O. R. 41

hyperbaric oxygenation 105, 106

hyperventilation 99

hypothermia 98, 99, 100

infection control
- disposable drapes as bacterial barrier 124
- environmental approach 7-10
- isolation technics 49, 50
- role of housekeeping 41
- role of sanitation 46-48

infections
- after cardiac surgery 50
- anesthesia equipment as cause 109
- dirty walls as factor 51
- facial tissues as source 52
- from plaster of Paris 51
- gangrene after venipuncture 52
- gram-negative 49, 109
- relationship to position on schedule 52
- self-caused 11, 49

inservice education 27

instruments
- chemical disinfection 120
- cleaning 112
- counts 41
- discoloration 112
- sterilization 49, 112, 113, 115, 116, 117

isolation technics 49, 50

kick pails 42

laundry 19, 42, 114

lighting in O. R.
- inadequacies 26
- maintenance 33, 34

linens
- decontamination 114
- patching 133

locker-room planning 9

management of O.R. 35-37, 38-40

fluids, reaction to 129, 130

footwear, conductive 24, 42

foreign-body control 23

glutaraldehyde 119, 120

hepatitis 119, 128

housekeeping in O. R. 41

hyperbaric oxygenation 105, 106

hyperventilation 99

hypothermia 98, 99, 100

infection control
- disposable drapes as bacterial barrier 124
- environmental approach 7-10
- isolation technics 49, 50
- role of housekeeping 41
- role of sanitation 46-48

infections
- after cardiac surgery 50
- anesthesia equipment as cause 109
- dirty walls as factor 51
- facial tissues as source 52
- from plaster of Paris 51
- gangrene after venipuncture 52
- gram-negative 49, 109
- relationship to position on schedule 52
- self-caused 11, 49

inservice education 27

instruments
- chemical disinfection 120
- cleaning 112
- counts 41
- discoloration 112
- sterilization 49, 112, 113, 115, 116, 117

isolation technics 49, 50

kick pails 42

laundry 19, 42, 114

lighting in O. R.
- inadequacies 26
- maintenance 33, 34

linens
- decontamination 114
- patching 133

locker-room planning 9

management of O.R. 35-37, 38-40

metals in orthopedic surgery 84-87

negligence, evidence of 40

noise in O.R. 25

nursery linen, treatment of 42

nylon caps 42

O.R. clothing, discard after case 132

O.R. committee 30

orthopedic surgery
- metals used, care of 84-86
- order in schedule 41
- Steinman pin 41

oxygen, role in explosions 24

pacemaker, implantable 94

paper wrappers 132

perfusion
- accessories, drape to hold 93
- with glucose and water 73-75

planning and designing O.R. 7-10, 11

plasma treated with BPL 128

preoperative check list 22

preoperative nursing unit 10, 11

preventive maintenance program for O.R. 32-34

priority system 29

professionalism in O.R. nursing, criteria 59-60

programmed instruction
- for procedural skills in O.R. 66-69
- unit on asepsis 61-65

pump oxygenator, disposable, in open-heart surgery 73-75

quaternary ammonium compounds 109, 119, 120

radium, radioactive isotopes, care and handling 98

recovery room
- air conditioning 48
- location 11
- staffing 30

safety program in O.R. 20-24, 34

scheduling of cases 13, 15, 23, 29, 30, 31, 41

selection of personnel 31

siderails, use of 22

skin-closure with microporous tape 70-72

skin disinfection 115, 119, 120, 132

sponge
- **counts** 23, 87
- **plastic, as wound cover** 98

staffing in O.R. 12, 13

staff nurse, role of 30

stereotactic surgery 95, 96

sterilization
- anesthesia equipment 109, 110
- bone grafts 111
- burrs, drill bits 112
- catheters 113
- glass flasks 113
- instruments 49, 112, 113, 115, 116, 117
- material for treating intracranial aneurysms 111
- needles 113, 133
- razors 115
- roller bandages 133
- rubber sheets 133
- scalpel blades 112
- solutions 131
- syringes 113
- test tubes 133
- with ethylene oxide 110, 114, 117, 118, 119

sterilizers
- maintenance 33
- water 131

steward program in O.R. 35-37

stopcocks, cleaning 113

student nurse in O.R. 26, 27, 31, 60

suction system, maintenance 34

supervisor, role of 28, 29, 38

surgical center 7-10

surgical drapes
- disposable, cost 19
- disposable, effectiveness as bacterial barrier 124, 125
- reusable, costs of preparing 16-19

surgical privileges 22, 23

sutures
- causes of extrusion from wounds 114, 115
- sterilization 113

tardiness of surgeon 27, 29, 30

technicians
- liability with use of 69
- training 53-58
- use of 26, 111

temporal bone bank 76-78

thermometer disinfection 115

tissue-banking methods 79-83

transfusions
- blood, deaths caused by error 127
- patient as own source of blood 127

unit-manager system 38-40

U.S. Navy Tissue Bank 79-83

unused time in O.R. 14, 15, 26

utilization of O.R. 12-15, 26

wall coverings 41
